Motor carriers keep an accident register for 3 years after the date of each accident (49 CFR 390.15(b)). List every accident as defined in 390.5T: an occurrence involving a commercial motor vehicle on a highway that results in a fatality, an injury immediately treated away from the scene, or a vehicle towed from the scene with disabling damage. Hazmat released does not count fuel spilled from the vehicle's own fuel tanks. Keep copies of the accident reports required by States, other governmental entities or insurers with the register (390.15(b)(2)).
